PROFILE

Innovative software developer with an analytical mindset who is highly motivated to utilize Java and other object-oriented languages to solve complex business challenges. A team player able to work independently and collaboratively in fast-paced environments, with experience remaining calm, effective and professional in high-stress situations.

EXPERIENCE

ZIP CODE WILMINGTON | DELAWARE | OCT 2018 – JAN 2019

Software Development Student

- Trained on Software Development Life Cycle (SDLC)
- Completed over 800 hours of software development projects and training
- Worked 80+ hours per week while gaining experience in Java, object-oriented programming languages and web development
- Gained experience in Agile and Scrum methodologies, Test Driven Development, and debugging code with an emphasis on writing clean code

Projects:

- ZipBook – In a group of 4, developed a Facebook clone app exclusively for Zip Code students. Using JDL to create UML, JHipster to build project using Java in the back end, Angular in the front end.
- Gift Registry App – Developing a website for gift registries, using Spring project using Java in the backend, Angular for the frontend and live data from APIs to present discounted deals on gifted items.
- Blackjack - Led a group of 3 in creating a casino game using Java to run in the console. Personally designed UML and oversaw game functionality

CHRISTIANA CARE | DELAWARE | NOV 2017 – JUN 2018

Licensed Practical Nurse (LPN)

- Performed and delegated clinical, laboratory and administrative tasks
- Assisted physicians in examining and treating patients
- Worked with insurance companies to resolve patient claims and communicated outcomes with patients and health care professionals

UNIVERSITY OF ALBERTA HOSPITAL | CANADA | NOV 2013 – FEB 2017

General Internal Medicine Nurse (LPN)

- Provided direct-care to patients in General Internal Medicine and I-Care
- Documented relevant diagnosis and evaluated data for patients
- Led and mentored Nursing Students during their Clinical
- Trained in cardiac monitoring, cardiac rhythms and dysrhythmia
